## **Pluto Series (Embeddable Options)**

Simple gallery players are available for embedding on your blog, on your website or for using in your MLS - with or without the player controls.

Available in a few options

## **Social Media Tools**

For agents that want to be pro-active about marketing a listing, social media is the place to be. The media kit includes variety tiles for posting to any social media platform, making it easy to look good in the social-sphere.

I know you are ready to spread the word about that hot new listing. Is there an Open House? Did the property sell quickly? Social media followers need to know that too!

## Social Media Videos

These can come as branded and unbranded options, and two sizes of teaser videos, your listing will come to life, grab attention and get shared in social feeds.

## Flyer Templates

With more than a dozen flyer templates to choose from, I will create a full-page flyer from the high-resolution photos.
